PADS AND RELEASE LIQUID
(E-Z PATCH 21)
FOR E-Z TO DO GROUTING**

NET 10 U.S. FL. OZ. (296 ML)

WHITE

**Excellent bonding to Ceramic Tile,
Cured Masonry Surfaces, Fiberglass,
Wood, Fiber Optics, ABS, and Glass.**

E-Z DIRECTIONS:

- **Surfaces must be clean & dry.**
- **Cut tip to desired size and puncture inner foil seal several times.**
- **SETTING TILE:**
 1. Apply **E-Z PATCH 22 SILICONE RUBBER** on the back of the tile or on the substrate surface and then set tiles.
- **GROUTING:**

Easily done with our E-Z Patch 21 Scrubber Pads and Release Liquid.

 1. Fill the crack or grout joint full and deep with **E-Z PATCH 22 SILICONE RUBBER.**
 2. Run finger over joint for 100% sealing to both sides of grout joint.
 3. Submerge the **Scrubber Pad** in water, pour some **Release Liquid** on it and immediately scrub off all excess silicone rubber.
 4. Clean up with paper towel and rubbing alcohol or mineral spirits.

****Do not allow silicone rubber to skin over before removing any excess (about 1-5 minutes).**

****Do not allow release liquid and water to contact surfaces prior to installing silicone rubber.**

CAUTION: Do not take internally. If ingested, do not induce vomiting and call a Physician immediately. In case of contact with eyes, immediately flush with water for 15 Min. If irritation persists, get medical attention. Contains a strong fungicide. Do not use near food handling equipment. Uncured product may irritate the skin. To clean from skin, use paper towel and rubbing alcohol or mineral spirits and then wash skin with soap and water.
