

E-Z PATCH® 6

POOL CONCRETE AND CANTILEVER EDGE REPAIR KIT

A EASY TO USE REPAIR KIT FOR POOL CONCRETE REPAIRS

E-Z PRODUCTS

888-439-7282

NET WT. 50 LB. (22.7 Kg)

**REPAIR KIT CONTAINS 60 FL. OZ. (1.75 liter) LIQUID CEMENT BONDER
AND APPROX. 50 LB. (22.7 Kg) DRY CEMENT MIX**

E-Z INSTRUCTIONS:

1. Remove any loose pieces. 2. Scrub area with water (and soap if needed). 3. Immediately rinse the area thoroughly and allow to dry. 4. **FOR RESETTING PIECES OF EXISTING CONCRETE:** Apply a small amount of E-Z PATCH 3 (Thinset) and firmly press into place. For a flexible repair use E-Z PATCH 22 Neutral Cure Silicone Rubber but the surfaces must be very dry! Then repair edges or gaps with **E-Z Patch 6**. 5. Add 2 oz. of LIQUID CEMENT BONDER per 1 ½ lb. **E-Z PATCH 6** DRY CEMENT MIX. Add water and mix until you get the consistency of very stiff “mashed potatoes”. Use warm water for faster set and cold water to slow set. 6a. **FOR CANTILEVER EDGE REPAIR:** Firmly apply one thin scratch coat of **E-Z PATCH 6**. Immediately fill in the area up to 1 ½” thick. If the repair is thicker, wait until first application is stiff, and then apply more **E-Z Patch 6**. Trowel flat and smooth. Remove excess from edges with a moist sponge. 6b. **FOR CHIP REPAIR:** Firmly apply one thin scratch coat of **E-Z PATCH 6**. Immediately fill in the area fully troweling it flat and smooth. Remove excess from edges with a moist sponge. 6c. **FOR CRACK REPAIRS:** Rub **E-Z PATCH 6** deep into crack and remove any excess with a moist sponge. **Allow overnight set before foot traffic or swimming.**
